

South Saskatchewan Manufacturing Consortium & QMI/Visual-Lean® Institute present...

co-sponsored by Enterprise Saskatchewan

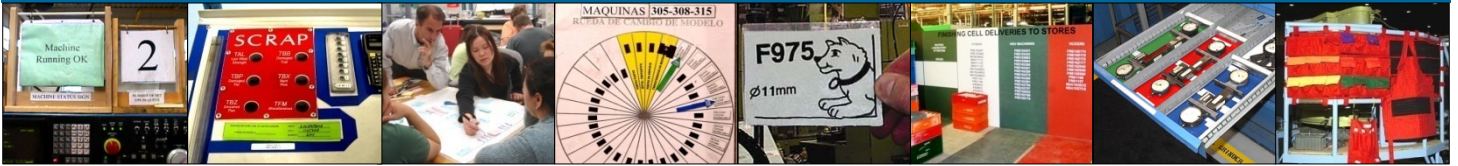

Visual Workplace•Visual Thinking Seminar (at Delta Regina Hotel) & Plant Tour March 2 and 3, 2011 Regina, Saskatchewan

Conducted by Gwendolyn Galsworth, author of *Visual Workplace•Visual Thinking*

• Hosted by Brandt Engineered Products Ltd, Regina, SK, Canada •

What is a Visual Workplace?

A Visual Workplace is not about buckets and brooms, posters, and signs or a handful of metrics boards. It is a compelling operational imperative, crucial to meeting daily production goals, central to your war on waste, vastly reduced lead times and an accelerated flow.

Workplace visuality is the language of excellence made visual and the glue that holds all other improvement activities together and makes them sustainable.

Effectively implemented, visual devices create a workplace that is self-ordering, self-explaining, self-regulating and self-improving—where what is supposed to happen does happen, on time, every time, day or night, *because* of visual solutions.

Whether you are well on your journey to enterprise excellence or are about to begin, visuality will transform your workplace and accelerate your improvement results and make them sustainable.

The Brandt Group consisting of 5 companies, employs more than 1200 people across Western Canada in construction and forestry equipment sales/service, plus two manufacturing facilities. More than 200 of those people are employed at Brandt Engineered Products Ltd. (BEPL). A low-volume/high complexity design-build-to-order supplier of heavy industrial equipment, BEPL provides solutions to customers around the world. BEPL have innovatively utilized lean principles to align with the company's paced output. Then, it discovered the power of visuality to contribute to Brandt's journey to excellence—its bottom line and its work culture alignment.

What You Will Learn

- Discover the ten core visual improvement technologies (Doorways) & the key visual outcomes of each.
- Learn to diagnose visuality in your own company & identify your current level of visual competency.
- Learn about the vital journey of the individual as the company converts to visuality—I-Driven.
- Learn how to track visual's impact on people.
- Learn the vital difference between measures that monitor and measures that drive.
- Discover the three biggest mistakes when launching a visual initiative & how to avoid them.
- Learn the *Five Reasons for Visuality*, including about the Visual-Lean® Alliance.
- Learn to energize and unite your workforce through visual functionality—even in a multi-lingual/multi-cultural/multi-shift work company.

Galsworth is the world's foremost authority on visual management. She raises the stature of visuality, hardens soft notions about it, and embeds it in structure and theory. Richard Schonberger, *Let's Fix It!*

Day One: Tuesday, March 2, 2011 (8:00am-5:00pm)

Hear Dr. Gwendolyn Galsworth, leading authority on visuality in the workplace, discuss her unique approach to the visual workplace. Learn about the principles, concepts, methods, and tools that show you what a visual workplace is, how it works, and why it's so important. Identify keys to sustainable results through people. See over 100 actual visual solutions, invented by employees who have learned how to think visually. Learn about the triumphs and pitfalls of a visual conversion. Then get ready for your next steps. **(No limit on seminar group size.)**

Day Two: Wednesday, March 3, 2010 (7:30am-12:30pm)

Participate hands-on as teams tour *Brandt Engineered Products*, a supplier of low-volume/high complexity heavy industrial equipment—and assess the site's current level of visual competency. Then compare your findings with those of the other teams and envision Brandt's next visual steps as Dr. Galsworth frames the exchange and facilitates further learning.

Group Size for tour (only) is limited to 20 people, first come/first served. (Tour attendees must participate in seminar.)

Seminar Only: SSMC Member \$245 • Non-Member \$395
Seminar & Tour: SSMC Member \$300 • Non-Member \$495
Send three and fourth person attends free (for seminar only).

Included in your registration: Lunch + Seminar Participant Manual + Visual Workplace Overview DVD + Dr. Galsworth's award-winning book, *Visual Workplace • Visual Thinking*.
